

I have been an XM susscriber for almost 2 years. I have access to music types that my local radio station don't carry because there's not enough money to be made. I also enjoy being able to listen to the news. I am on the road for 7-9 hours a day five or six days a week. I used to miss alot the goes on becauce of being on the road, now I get to listen to news. I listen to Fox and CNN and also MSNBC news stations, so I can keep up with events as they happen. Big broadcasters don't care about anything if they can't make big bucks on it. With XM radio we get a hugh seletion of music, sports, comedy, talk, and news. I pay for this service for all of these reasons. Local radio doesn't carry one fourth of what I get on XM radio.
